

A large, friendly-looking penguin is the central figure. It has a white face with a small black tuft of hair on top, a large orange-yellow beak, and dark grey/black feathers on its head and neck. It is holding a rectangular sign with a red border featuring a pattern of red circles. The sign contains the text "La banquise" on the first line and "Trousse !" on the second line, both in a black, sans-serif font.

# La banquise

## Trousse !

Maman des fauves

# Idées lecture

Perdu? Retouvé! - Oliver Jeffers

Plouk - Christel Desmoinaux

Biboundé - Michel Gay

Les animaux du Froid- La grande imagerie

Pit le petit pingouin - Marcus Pfister

Les animaux de la banquise - Stephanie Ledu

Pôle nord pôle sud - Rosalyne Wayde

Le voyage de plume - Hans de Beer

Cartes - Marie-Laure Phelippeau

# Idées d'activités

## Activité sensoriel:

Neige artificielle (500 gr bicarbonate de soude + 1/2 bombe de mousse à raser. Le mélange doit ni être trop collant ni trop sec. Mettez des figurines de la banquise et glaçons en plastique pour faire des icebergs et simuler le froid.

## Parcours de motricité:

Marcher comme un manchot sur une ligne droite, sauter de iceberg en iceberg (cerceaux déposées par terre) se laisser glisser sur le ventre comme un manchot (toboggan).

## Arts plastiques:

Construire un pingouin avec du papier déchiré.

# STEAM

Construction d'un igloo:

sucré en morceaux

glaçage comme mortier

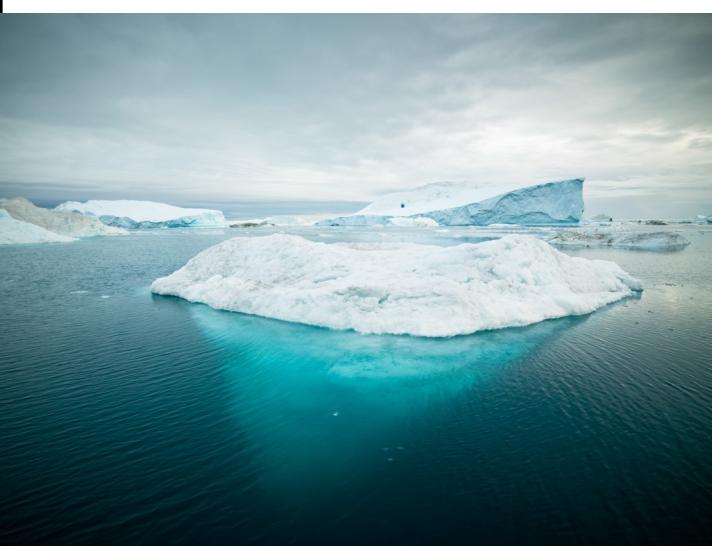

sucré glace pour couvrir de neige la construction

Découvrir les états de l'eau:

observer l'eau liquide puis mélanger avec de la grenadine pour faire des glaces à l'eau. Faire des glaçons en même temps et les laisser fondre ou les aider avec du sel, de la chaleur etc.. Demander à l'enfant à quoi l'eau sert et où elle trouve.

# Le pôle nord - Arctique

L'arctique est une mer gelée. La glace, la banquise fond en été et rejoint les terres en hiver. Au pôle nord habitent des Inuits. On peut voir des aurores boréales, des glaciers et des ours polaires.

# Le pôle sud - Antarctique

L'antarctique est un continent couvert de glace. Loin des terres et entouré de mer. La banquise fond en été et se répand en hiver. On peut voir des aurores boréales, des glaciers et des manchots. Il fait si froid que personne n'y habite, on peut trouver des stations polaires où il y a des scientifiques qui travaillent.

# Comptine

Donne-moi la main, je t'amène en voyage  
Dans un pays lointain où vivent nos copains

Donne-moi la main, traversons les nuages  
Partons faire une bise aux amis de la Banquise

Il y a la baleine qui chante comme une sirène  
Et aussi le pingouin qui tape dans ses mains

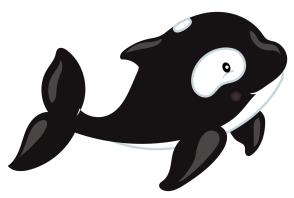

Tiens voilà l'ours polaire avec son gros derrière  
Et regarde le morse comme il bombe le torse

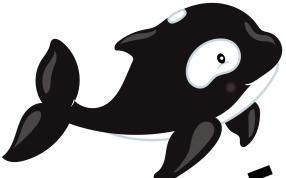

Donne-moi la main, on va faire des bêtises  
Avec tous nos amis, nos amis de la Banquise
