Idées d'activités

Idées d'activités

Activité sensoriel:

Dans un bac verser billes d'eau puis ajouter l'eau pour voir ce qu'il se passe, ajouter des éléments pour verser et des récipients..

Activité STEAM:

Fabrication d'un pluviomètre et création d'un cycle d'eau Page 6

Arts plastiques:

Une goutte d'eau – Guy Thomas

Une goutte d'eau est tombée du ciel
Et sur mon carreau là, elle ruisselle
 Elle glissera dans le caniveau
Pour aller grossir un petit ruisseau
 Ce petit ruisseau devenant rivière
Rejoindra un jour les bords de la mer
La goutte chauffée par notre soleil
 Deviendra buée là-haut dans le ciel
Dans un gros nuage elle s'entretiendra
Avec d'autres gouttes du vent et du froid
 Et puis tout à coup elle retombera
Sur mon carreau gris vous savez pourquoi.

Fabrication d'un pluviomètre

Le pluviomètre est un instrument qui sert à mesurer la quantité de pluie tombée.

Matériel:

2 bouteilles : 1 grande, 1 petite

Des petites étiquettes

Feutre indélébile

Fabrication : Enlever les bouchons, couper les bouteilles, la grande par le haut, la petite par le bas. Emboîter la petite bouteille dans la grande puis installez le dehors.

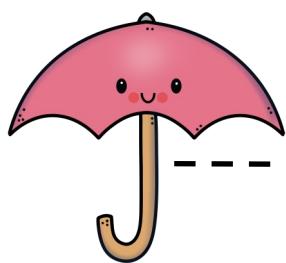

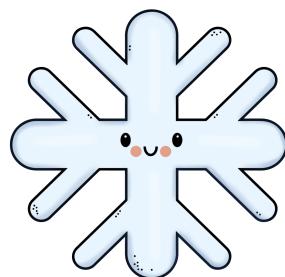

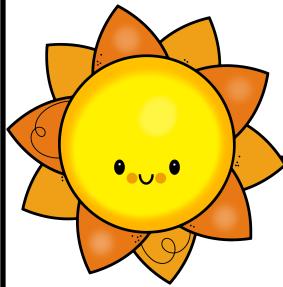

Créer un cycle d'eau

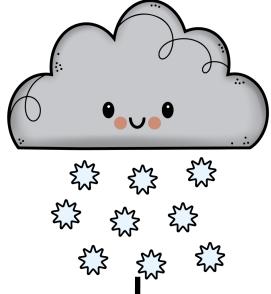

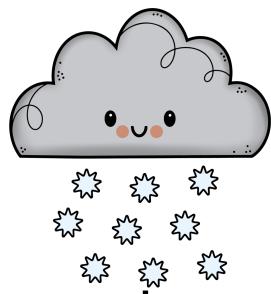

Sac zip loc.

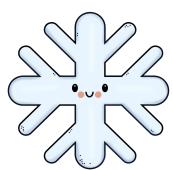

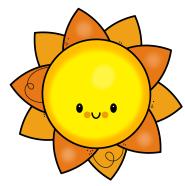

Eau coloré

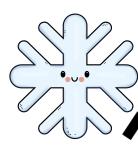

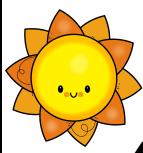

Dessinez sur le sac le cycle d'eau puis remplissez à moitié avec de l'eau. Scotchez le à une fenêtre puis regardez la magie opérer.

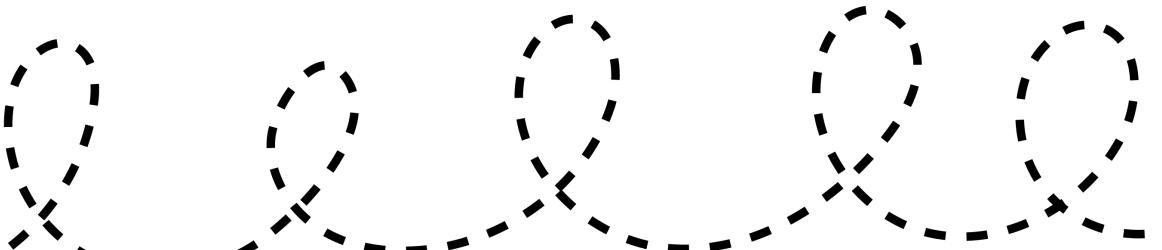

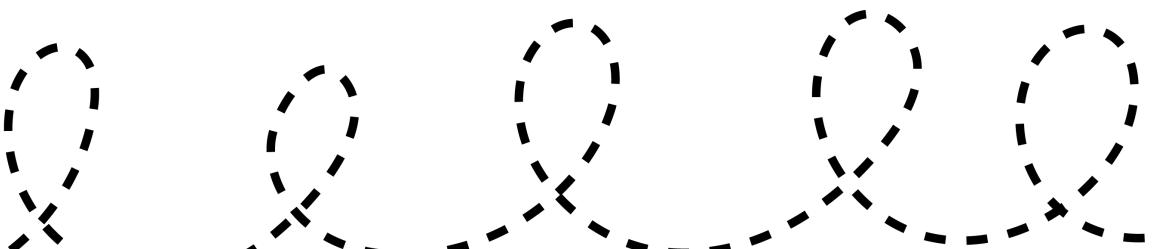

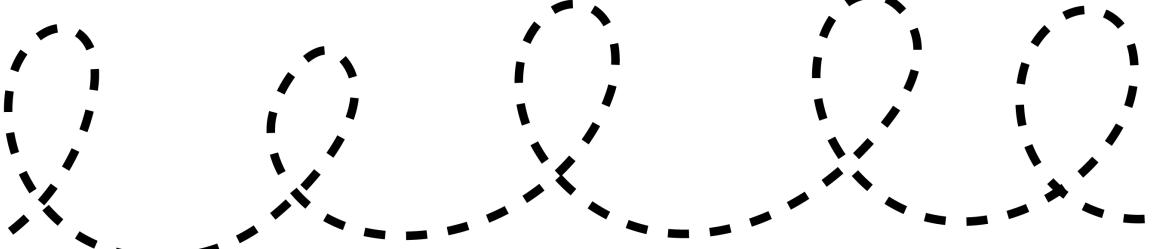

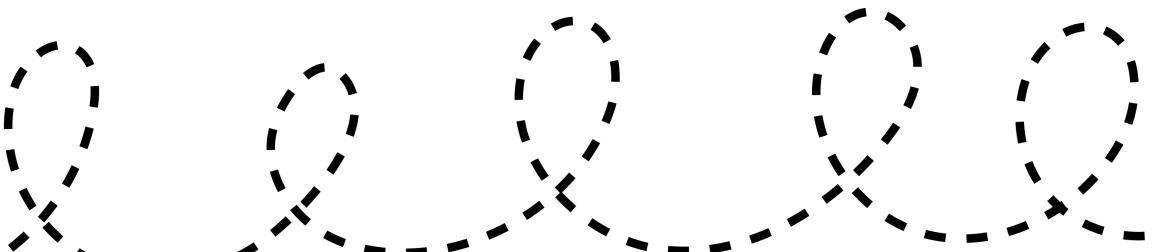

Graphisme

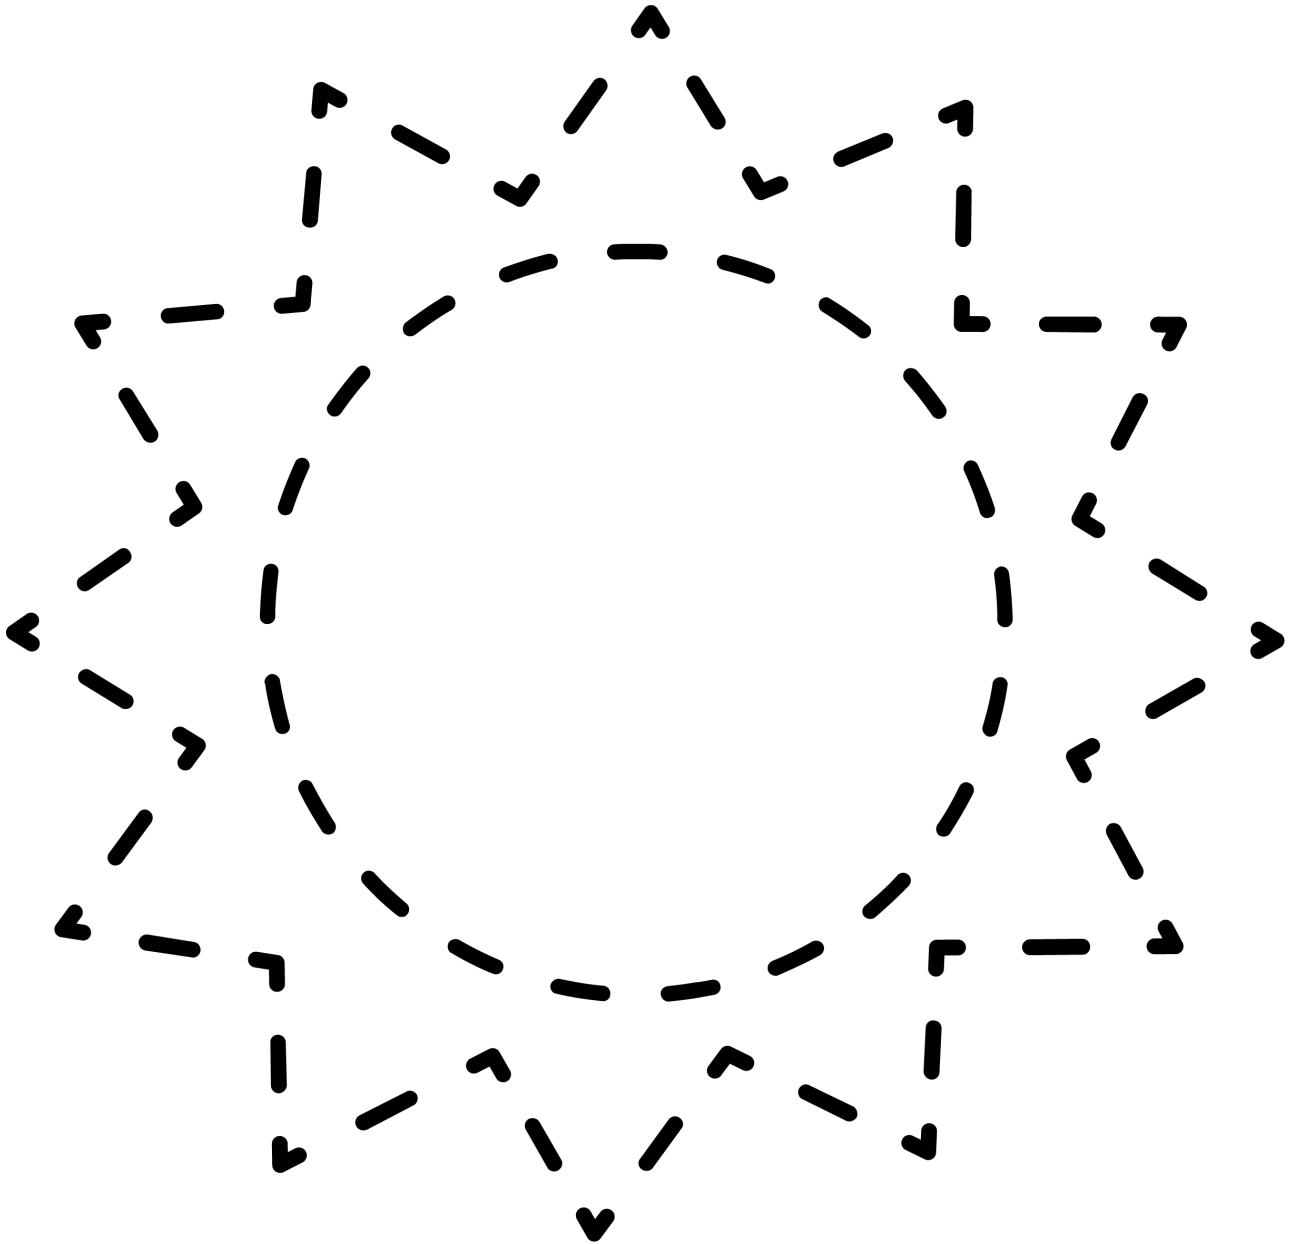

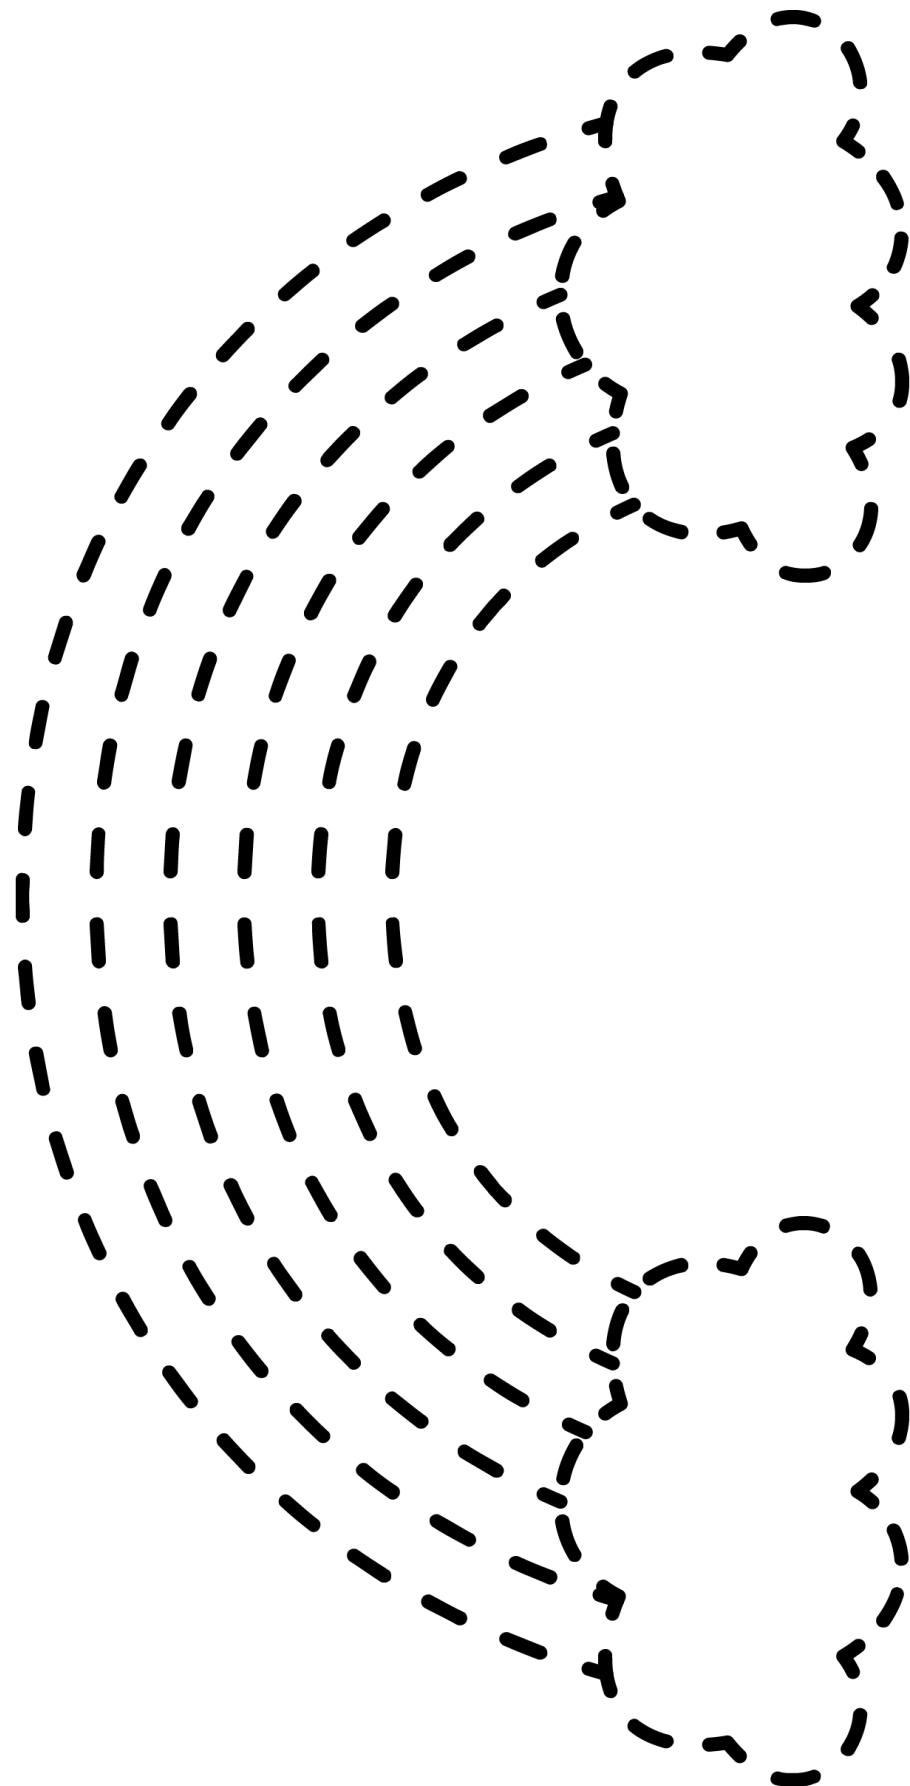

Tracer les formes

Tracer le soleil

Tracer l'arc-en-ciel

Coller le bon nombre de gommettes
